EDUCATION

University of St. Thomas, Saint Paul, MN — Expected Graduation: *Spring 2027*

B.S. in *Computer Science*, Minor in *Data Science*

EXPERIENCE

ITS Senior Student Technician *ITS, University of St. Thomas* — Jun 2024 – Present

- Resolve 90+ Multi-Factor Authentication (MFA) and password issues per week
- Recover compromised email accounts and guide phished users through security remediation
- Train new student technicians on troubleshooting workflows and user-centered support practices

Service Desk & Desktop Support Intern *ITS, University of St. Thomas* — Jun 2023 – Aug 2023

- Streamlined the campus hardware refresh cycle by deploying 300+ computers for 100+ employees
- Performed daily audio/visual and hardware checks across 20+ classrooms
- Executed secure data migration procedures and diagnosed defective hardware

ITS Student Technician *ITS, University of St. Thomas* — Jun 2021 – Jun 2024

- Supported users across Canvas and Microsoft 365, resolving 75%+ of user issues
- Handled a high volume of password resets and application support requests

PROJECTS

- **Study Coach (Python, MCP):** Co-maintain a local MCP server that turns Canvas assignments and calendar events into study plans; leading a unified macOS/Windows setup process
- **Habit Tracker iOS App (Swift, SwiftUI):** Built and shipped an iOS habit-tracking app on GitHub using SwiftUI state management, two-way data binding, and SwiftData persistence
- **Lovable AI Hackathon (React, JavaScript):** Selected for Lovable's AI Hackathon (Nov 2026); rebuilt my personal portfolio site in React and JavaScript using Lovable's AI-assisted app builder
- **Mental Health Analysis (R):** Analyzed how family and academic pressure affect mental health among college students in India using R and Tidyverse

COMMUNITY ENGAGEMENT

Treasurer *Computer Science Club, University of St. Thomas* — Dec 2025 – Present

- Manage club finances, budgeting, and event funding

Member *Computer Science Club, University of St. Thomas* — Feb 2024 – Present

- Participated in coding competitions, hackathons, and mini group projects

SKILLS

- Languages: *Java, Python, JavaScript, C#, Swift, Kotlin, R, SQL, HTML/CSS*
- Frameworks & Tools: *React, SwiftUI, Node.js, Vite, Git/GitHub, VS Code*
- Data Analytics & ML: *Regression Analysis, Multivariate Analysis, Data Mining/Machine Learning*
- Platforms & Support: *Microsoft 365, Azure AD, Conditional Access, Canvas, Windows, macOS*
